Greetings St. Anne Friends!

I hope each of you are as excited about the 2017-2018 school year as I am! The faculty, staff and administration of both St. Anne districts have worked hard to prepare for the start of what we anticipate as being a fantastic year!

At St. Anne schools this year we are focusing on "Moving from Good to Great!" As I spoke to the faculty and staff recently in many ways we are good or even great in some areas. However, it is our desire and more importantly it is our belief that "ALL" of our children deserve the best so we will continually strive toward that goal.

We are proud of the comprehensive curricular program that we offer at both St. Anne Grade School and St. Anne High School.

For being two small rural school districts we believe that we are at the cutting edge in our implementation of the 1:1 computer initiative. Each student in grades 3 - 12 have Chromebooks that they utilize throughout the school day and take home with them. We believe that this program is vital in the future success of our students and are grateful for community and parental/guardian support.

We are proud to announce that at SACHS this year we are offering a full time Agricultural experience for our students. St. Anne is a community which is made up of many farmers or individuals with agricultural backgrounds. We are excited to see AG return as a full-time offering for the first time in many years. These are just two of the many great opportunities that we offer in our St. Anne schools. Our hope is that ALL of our students are challenged by our curriculum while being cared for and loved by our wonderful faculty, staff and administration!

A true passion for the success of the whole child is at the heart of our faculty and staff. We not only want students to graduate from SAGS and SACHS who are academically ready to take on the world, but we want our students to be Socially and Emotionally ready as well. Our support team throughout both SAGS and SACHS work tirelessly to provide Social and Emotional support with students as needed. We believe that these programs, from individual counseling to Cardinals Against Bullying will aid in the future successes of ALL of our students.

We are very proud of the St. Anne community and both of our schools. We hope parents/guardians, students and community members share this pride and will continue to work alongside the faculty, staff and administration in order to “Move from Good to Great” and to see all of our our students reach their individual potential.

If you ever have any questions about your St. Anne Schools don't hesitate to contact our building level administration at both SAGS and SACHS or contact myself at the District office.

I encourage each of you who are active Twitter to follow us at:
